

Project Update

East End Ped/Bike & Streetscape Improvements Project

Date: 04/07/14

This week, the Contractor anticipates performing the following work on Mt. Diablo Blvd. between First Street and Brown Avenue:

1. Continue work on punch-list items;
2. Start installation of the traffic signs;
3. Start installation of the traffic loop detectors at the intersection of Mt. Diablo Blvd. and Brown Avenue. **This work is scheduled for Wednesday and Thursday. Traffic loop installations require lane closures on Mt. Diablo Boulevard and Brown Avenue at the approaches to the intersection.**

While the work is in progress, please lend us your cooperation and extra patience and be alert to equipment, workers, and traffic.

If you have any questions or concerns, I may be reached at (925) 284-1951. Again, your patience and cooperation are very much appreciated.

Farzaneh Sanders
Senior Engineer
