

City of Lafayette Priority Development Area

 Priority Development Area

Air Quality Management District, and the Bay Conservation and Development Commission designated Downtown Lafayette as a Priority Development Area (“PDA”), as part of their regional planning initiative called FOCUS, short for Focusing our Vision. The PDA designation does not demand growth; however, it may support the growth that the City is planning and experiencing. This designation will enable the City to establish guidelines and policies to foster and guide growth through technical assistance, planning grants, and capital grants.
