

GET W.I.S.E.!

Wireless Information & Safety Education

Are you curious about the health effects of wireless radiation on you, your children & wildlife, cell tower placement, Wi-Fi in schools, safer cell phone use, & smart meters? Do you want to know how you can make your homes and communities as safe as possible for your family while continuing to enjoy this valuable technology?

THEN PLEASE SAVE THIS DATE!

May 29, 2014 6:30 pm Lafayette Library

Join us to meet world renowned
Dr. Martin Blank of Columbia University,
author of the new book “Overpowered”. Dr. Blank is an expert on the biological effects of this radiation on humans and on the environment. We will discuss critical issues such as:
