Management's Discussion and Analysis

INTRODUCTION

As management of the City of Lafayette (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ending June 30, 2008

The management discussion and analysis is designed to

- (a) assist the reader in focusing on significant financial issues,
- (b) provide an overview of the City's financial activity and any changes in financial position,
- (c) explain any material deviations from the financial plan (approved budget),
- (d) and discuss the City's ability to address future challenges.

FINANCIAL HIGHLIGHTS

- The City's net assets increased by \$1,988,643. The governmental net assets increased by \$1,975,727 and the business-type net assets (e.g. Parks & Recreation) increased by \$12,916.
- The City's governmental funds reported combined ending fund balances of \$84,086,131, of which \$18,462,545 is unrestricted.
- The unreserved fund balance for the General Fund was \$9,054,144 an increase of \$196,500 compared with the prior year.
- The City's total debt decreased by \$435,000 during the current fiscal year. The total debt balance at year-end was \$26,160,000.
- The following is the year over year comparison of revenues and expenses:

	2006	2007	2008	Change
Revenues				
Property Tax	5,823,685	7,297,461	7,300,248	0.04%
Sales Tax	2,886,865	3,014,825	3,047,116	1.07%
Franchise Fees	981,538	1,093,899	1,140,008	4.22%
Motor Vehicle Fee	2,229,873	1,879,161	1,949,901	3.76%
Transient Occupancy	581,080	628,571	615,415	-2.09%
Investment Income	1,119,668	1,656,880	1,888,359	13.97%
Vehicle Fines	395,683	296,768	284,161	-4.25%
Grants Federal/State	18,631,379	667,145	680,107	1.94%
Fees for Service	1,235,462	1,628,418	1,377,796	-15.39%
Parking Fees	138,715	146,410	199,507	36.27%
Gas Tax	452,469	451,046	442,236	-1.95%
Transfer Tax	279,879	284,441	215,548	-24.22%
Other	292,885	729,239	863,279	18.38%
Recreation Programs	1,134,841	1,102,279	1,033,317	-6.26%
TOTAL	36,184,022	20,876,543	21,036,998	0.77%

Expenses

Council & Commissions	1,012,155	974,170	1,840,706	88.95%
Police	3,195,198	3,424,615	3,635,692	6.16%

Planning & Engineering	1,405,650	1,385,661	1,630,903	17.70%
Administration/Redev	2,514,499	3,183,659	3,524,051	10.69%
Debt Service	1,113,408	1,287,148	1,774,358	37.85%
Vet's Building	7,610,441	-	-	0.00%
Other	471,428	327,034	303,832	-7.09%
Recreation Programs	1,051,031	1,022,612	1,000,401	-2.17%
TOTAL	23,138,791	17,360,208	19,048,355	9.72%
Excess of Revenue over Expenses	\$ 13,045,231	\$ 3,516,335	\$ 1,988,643	-43.45%

THE CITY AS A WHOLE

One of the most important questions often asked about the City's finances is, "Is the City better or worse off as a result of the year's activities?" The *Statement of Net Assets* and the *Statement of Activities* report information about the City as a whole in a way that helps answer this question.

Looking at the City's net assets—the difference between assets and liabilities—is one way to measure the City's financial health. Over time, increases or decreases in the City's net assets are an indicator of whether its financial health is improving or deteriorating. However, other nonfinancial factors, such as changes in the City's property tax base and the condition of the City's roads must also be considered.

In the *Statement of Net Assets* and the *Statement of Activities*, we divide the City into two kinds of activities:

- **Governmental activities**—Most of the City’s basic services are reported here, including police, general administration, public works, planning and community development. Sales taxes, property taxes, vehicle license fees, franchise fees, and vehicular fines finance most of these activities.
- **Business-type activities**—For certain programs, the City charges fees to help cover most or all of the cost of certain services it provides. Only the City’s Park and Recreation program is reported here.

STATEMENT OF NET ASSETS

Year Ended June 30, 2008	Governmental Activities	Business Activities	Total
Beginning Net Assets	\$82,021,851	75,637	\$82,097,488
Increase/Decrease	1,975,727	12,916	1,988,643
Ending Net Assets	\$83,997,578	\$88,553	\$84,086,131

As noted earlier, net assets may serve over time as a useful indicator of a City’s financial position. The detailed *Statement of Net Assets* on page 2 of the financial report shows two significant things pointing to the overall health of the City:

1. The City’s net assets increased by 2.42 % from prior year
2. Assets exceeded liabilities by \$84,086,131 at year-end

62% of the City’s net assets (\$51,772,176) are invested in capital assets (i.e., land, buildings, utility plants, machinery and equipment) and are reported net of related debt. However, since capital assets are used to provide services to citizens, they cannot be used to liquidate liabilities. It should therefore be noted that the money needed to repay debt must be provided from other sources. It should also be noted, however, that these financials do not take into account the significant deferred maintenance obligations the City has with regard to residential roads which is discussed more thoroughly in the Strengths & Weaknesses section of this report.

STATEMENT OF ACTIVITIES

Governmental Activities

The *Statement of Activities* can be found on page 3 of the financial statement report. In this table, you will notice that expenses are listed in combination with the revenue for each particular program. This format shows how much of each program is funded through fees and/or grants and highlights the relative financial burden of each program for the City’s taxpayers. This year, the City received \$17,945,778 in general revenue and incurred net expenses of \$15,957,135.

Business-Type Activities

The City reports only one program, Parks & Recreation, as a business-type activity since Recreation programs are expected to be fully self-supporting through fees, donations, gifts and grants. This year, with expenditures and transfers of \$1,025,401 and revenue and transfers of \$1,038,317 the program showed a gain of \$12,916. Therefore, the City's net assets increased by an equal amount. This is the fourth year that this enterprise fund has shown a profit in the last five years.

SIGNIFICANT FUNDS

Fund Financial Statements

The fund financial statements provide detailed information about the City's most significant funds. Some funds are required to be established by State law and by bond covenants. However, the City Council may establish other funds to help control and manage money for particular purposes (e.g. Capital Project Funds) or to meet the legal responsibilities for using certain taxes and federal or state grants.

- **Governmental funds**—The governmental fund statements provide a detailed short-term view of the City's general operations and the basic services it provides. Governmental fund information helps determine what financial resources are available in the near future to finance the City's programs. The relationship between governmental activities (reported in the *Statement of Net Assets* and the *Statement of Activities*) and governmental funds is reconciled at the bottom of the fund financial statements.
- **Proprietary funds**—These funds make up the business-type activities reported in the *Statement of Net Assets* and the *Statement of Activities* but provide more detail and additional information, such as cash flows.

FINANCIAL ANALYSIS

Governmental Funds

In analyzing the City's governmental funds, the unreserved fund balances serve as a useful measure of the available resources.

As of the fiscal year ended June 30, 2008, the City's governmental funds reported combined ending fund balances of \$33,187,196 a decrease of \$11,352,579 in comparison to the prior year. This was due primarily to drawing down funds to construct the Lafayette Library & Learning Center.

Approximately 73% of these funds are considered reserved, which means that they have already been committed to specific programs. The remaining funds are undesignated, which means that they are available for spending at the council's discretion.

Capital Assets

The City's investment in capital assets as of June 30, 2008 totaled \$77,573,616, net of accumulated depreciation of \$50,823,330, which represents an increase of \$3,009,772 over the prior year. This investment in capital assets includes land, buildings, improvements, machinery and equipment, park facilities, roads and bridges. The fixed assets summary can be found on page 27 of the financial statement.

Major capital asset additions during the current fiscal year include:

- Mt Diablo Blvd-1st to Dolores
- Emergency Creek Stabilization
- 2007 Pavement Management Resurfacing
- 2006 Pavement Management Project Carol Lane
- Estates Drive/Canyon Road

Long Term Debt

At the end of the current fiscal year, the City had \$26,579,422 in long-term debt, which includes \$16,935,000 in Redevelopment bonds, \$9,225,000 in General Obligation bonds and \$419,422 in accrued vacations and leave.

STRENGTHS & RISKS

General Fund

The general fund is the primary operating fund of the City. At June 30, 2008, the undesignated fund balance was \$9,054,144, an increase of \$196,500 over the prior year. The City's policy is to maintain a cash reserve of 50% of general fund expenditures. The year-end general fund balance represents almost 100 % of general fund expenditures, suggesting that the City is in a very strong position and could cover an entire year of expenses without revenue.

Expenses

As a limited service City, Lafayette strives to keep its operating expenses relatively low and permanent employees at a minimum. The major expenses for the City are Police Services -- which are contracted through the County and account for more than 1/3 of the General Fund Expenses -- and Capital Improvements.

Over the last 10 years, the City has significantly improved the condition of most of the City's major thoroughfares and arterials. In order to maintain this investment, the City's General Fund contributes approximately \$1 million each year to the Pavement Management Program (PMP). However, the Capital Improvement Program for roads and drains still has a backlog of \$14-\$18 million that should be completed over the next 8 years. Without an additional source of revenue, many of the City's residential streets will not be repaired if not maintained. Furthermore, those streets that are currently in good condition may deteriorate. The Council placed measures on the November 2004 and June 2007 ballots

asking the residents to approve the sale of bonds. Neither measure, however, received the necessary 2/3 approval.

Another potential risk is Core Area Maintenance. The City has spent a significant amount of money over the last several years improving the downtown area by replacing streetlights and installing medians and landscaping. Although the current Core Area Assessment District pays for a portion of these expenses, there has been a large deficit in this fund for each of the last five years and this deficit will increase over time as expenses multiply while revenue remains flat. A measure to increase the assessment was defeated by property owners.

Revenue

Property Tax and Assessments are the largest revenue source for the City. Incorporated in 1968, the City did not levy a property tax prior to 1978 when Proposition 13 was adopted. Consequently, it receives a relatively low share of the property tax under the statutory formula. Under legislation adopted in 1988, some relief has been granted to cities in similar circumstances. Property tax collections, however, continue to be less than other cities collect. Currently the City receives approximately 6.18% of the property taxes paid by its residents, compared to an average of 9.08% for other cities in Contra Costa.

Despite the comparatively low share received by the City the property tax base remains stable, although most recent data shows that the median value of homes sold has declined about 15% nationwide as of 06/30/08. Assessed values in the City increased 7.46 % from \$4,713,484,211 in fiscal year 2006/2007 to \$5,063,964,876 in fiscal year 2007/2008 although the City's tax revenue increased only slightly from \$7,297,461 to \$7,300,248 which was due primarily to the slowdown in real estate sales as well as construction and development.

Sales Tax is the second largest revenue source for the City. Sales tax revenue increased by 1% during the year, from \$3,014,825 to \$3,047,116. Again, this is due primarily to the slowing economy. While it is expected that while sales tax revenue is likely to decrease in the near future, the impact will be somewhat mitigated by the fact that Lafayette does not have "big box stores" or auto dealerships that provide a large portion of the sales tax revenue and are more likely to suffer larger falloffs.

Vehicle License Fees (VLF) are the third largest source of revenue for the City. The State imposes an annual vehicle license fee (VLF) on the ownership of each registered vehicle in California, in place of taxing vehicles as personal property. The City received \$1,949,901 in 2007/2008 compared to \$1,879,161 in 2006/2007, an increase of \$70,740 in VLF revenues.

Other opportunities for increasing revenue are limited. While the City may increase its fees for service to more closely match the expenses, any additional taxes – such as a sales tax, utility tax, bond tax, or parcel tax -- must be passed by a 2/3 vote of the citizens, which has proven difficult not only for Lafayette but for all California cities.

Lafayette Finance Review Committee

In April 2008 the Council appointed a committee of residents to thoroughly review the City's finances and recommend opportunities for revenue enhancement and cost reduction. The results of that committee will be presented to the Council on December 8, 2008.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any information provided in this report or request for addition financial information should be directed to:

INDEPENDENT AUDITORS' REPORT

The Honorable Mayor,
City Council and City Manager
City of Lafayette, California

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Lafayette, California as of and for the year June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of City of Lafayette's management. Our responsibility is to express an opinion on these financial statements based on our audit and the standards applicable to financial audits contained in "Governmental Auditing Standards", issued by the Controller General of the United States of America.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of the City of Lafayette, California as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying Management's Discussion and Analysis and budgetary comparison information on pages i-vii and page 36 are not a required part of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board (GASB). We have applied certain limited procedures, consisting principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Lafayette's basic financial statements. The combining fund financial statements of the Redevelopment Agency are presented for purposes of additional analysis and are not a required part of the financial statements. The combining fund financial statements of the Redevelopment Agency other funds have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements
June 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City complies with generally accepted accounting principles (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements and the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. For enterprise funds, GASB Statement Nos. 20 and 34 provide the City the option of electing to apply FASB pronouncements issued after November 30, 1989. The City has elected not to apply those pronouncements. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent subsections of this Note.

1. A. Financial Reporting Entity

The financial statements of the City of Lafayette (the "City") include all the City's financial activities over which the City council exercises oversight responsibility. Oversight responsibility is determined on the basis of budget adoption, taxing authority, funding and appointment of the governing board (i.e., - all funds and entities for which the City council is financially accountable). As a result, the basic financial statements include the financial activities of the City as well as the City's Redevelopment Agency.

Financial statements for the Lafayette Community Center Foundation and the Lamorinda School Bus Transportation Agency are not included, as they are administered by boards separate from the City council. These entities determine their own budget, enter into contracts, have the legal right to sue and be sued, and acquire and dispose of property.

In determining the financial reporting entity, the City complies with the provisions of GASB Statement No. 14, "The Financial Reporting Entity," and includes all component units of which the City appointed a voting majority of the units' board; the City is either able to impose its will on the unit or a financial benefit or burden relationship exists.

Blended Component Units

Blended component units are separate legal entities that meet the component unit criteria described above and whose governing body is the same or substantially the same as the City Council or the component unit provides services entirely to the City. These component units' funds are blended into those of the City's by appropriate activity type to compose the primary government presentation i.e. The Lafayette Redevelopment Agency.

Discretely Presented Component Units

Discretely presented component units are separate legal entities that meet the component unit criteria described above but do not meet the criteria for blending. Currently, the City has no discretely presented component units.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

Blended component unit - Redevelopment Agency

The Redevelopment Agency (the Agency) is a separate agency of the City of Lafayette (the City) that carries out the Redevelopment Plan of the City and is the only unit blended in the reporting activity types of the City's report.

The Redevelopment Plan sets forth a legal framework and a broad policy framework for the activities of the City. The primary purpose and objective of the Redevelopment Plan is to stimulate and encourage the revitalization of the Project Area, to eliminate conditions of blight and to prevent the recurrence of blighting conditions, which shall be accomplished subject to and consistent with the goals and policies established by the General Plan of the City. The Redevelopment Plan has been approved by the City of Lafayette Redevelopment Agency, pursuant to the California Community Redevelopment Law of the State of California, and applicable laws and ordinances.

The Redevelopment Fund includes separate accounting funds for low-income housing, library project and a debt service fund to track bond obligations. The Redevelopment Agency had a combined fund balance of \$8,261,134 (see note 2.E.). Financing is accomplished by means of interfund loans from the General Fund of \$4,679,171 (at 8% interest), a loan with an outstanding balance of \$585,341 from another fund of the City being paid over a remaining period of 15 years with interest at 8%, and tax allocation bonds outstanding of \$16,935,000. The fund balance will increase and the debt service will decrease in future periods from Redevelopment incremental tax allocation revenues. Pursuant to an agreement dated April 2006, the Agency transferred title of the Veteran's Building to Contra Costa County.

1. B. Basis of Presentation

Government-wide Financial Statements:

The Statement of Net Assets and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for services.

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditure/expenses. Funds are organized into three major categories: governmental, proprietary (business type), and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or proprietary fund are at least 10 percent of the corresponding total for all funds of that category or type; and

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or proprietary fund are at least 5 percent of the corresponding total for all governmental and proprietary funds combined.

The funds of the financial reporting entity are described below:

Governmental funds

General Fund

The General Fund is the primary operating fund of the City and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for certain purposes. All Special Revenue Funds of the City are categorized as "Other Governmental Funds" since they do not meet the criteria individually as a major fund.

Capital Project Fund

The Capital Project Fund is used to account for resources restricted for the acquisition or construction of specific capital projects or items. The reporting entity includes only one combined Capital Project Fund and it is used to account for the acquisition of capital assets with transfers made from the General Fund and other fund sources.

Debt Service Fund

The Debt Service Fund accounts for the accumulation of financial resources for the payment of interest and principle on the general long-term debt of the city. Ad valorem taxes are used for the payment of principal and interest.

Redevelopment Agency Fund

The Redevelopment Agency Fund (RDA) accounts for activities of the RDA as previously described.

Proprietary fund

Enterprise (Business Type) Fund

Enterprise funds are used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The City's only proprietary fund (business-type) is that of the "Recreation Programs."

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

Fiduciary funds (not included in government-wide statements)

Agency Funds

Agency funds account for assets held by the City in a purely custodial capacity. There were no remaining Agency Funds at June 30, 2008.

Major and non-major funds

The funds are further classified as major or non-major as follows:

<u>Fund</u>	<u>Brief Description</u>
Major:	
General Fund	Primary operating Fund of the City
Capital Project Fund	Accounts for specific capital projects
Debt Service Fund	Accounts for resources for payment of interest and principal of long-term debt.
Redevelopment Agency Funds	Accounts for the Redevelopment Agency funding and projects
Non-major:	
All Special Revenue Funds:	Used to account for proceeds of specific sources that are restricted for expenditures for specific purposes, as follows: <ul style="list-style-type: none">● Parking programs● Vehicle abatement● Senior transportation● Police services special fund● Gasoline tax● Measure C - Return-to-source● Supplemental law enforcement● Assessment District-Street Lighting● Assessment District-Core Area Maintenance● Assessment District-Storm Water Pollution

1. C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded regardless of the measurement focus applied.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

Measurement focus

On the government-wide Statement of Net Assets and the Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus as defined in item 'b' below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary fund (business-type) utilizes an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.
- c. Agency funds are not involved in the measurement of results of operations; therefore, measurement focus is not applicable to them.

Basis of accounting

In the government-wide Statement of Net Assets and Statement of Activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds and agency funds (when applicable) are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

1. D. Assets, Liabilities, and Equity

Cash and investments

For the purpose of the Statement of Net Assets, “cash, including time deposits” includes all cash accounts, savings accounts, certificates of deposits of the City, and the investment in the State of California fund called the “Local Agency Investment Fund (LAIF)” which is available for immediate withdrawal. For the purpose of the proprietary fund Statement of Cash Flows, “cash and cash equivalents” include all demand and savings accounts, and certificates of deposit or short-term investments with an original maturity of three months or less. Cash and investments in restricted assets are not considered cash equivalents.

Investments are carried at fair value except for short-term U.S. Treasury obligations with a remaining maturity at the time of purchase of one year or less. Those investments are reported at amortized cost. Fair value is based on quoted market price. Additional cash and investment disclosures are presented in Notes 2.C. and 3.A.

Interfund receivables and payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as “due to and from other funds”. Short-term interfund loans are reported as “interfund receivables and payables”. In addition, there is a 20 year note (15 remaining) payable from the Redevelopment Agency to another governmental fund in the amount of \$585,341 at June 30, 2008. Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets. See Note 3.G. for details of interfund transactions, including receivables and payables at year-end.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include sales and use taxes, franchise taxes, grants, police fines, and ambulance fees. Business-type activities report sundry class receivables and interest earnings as receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as sales tax, franchise tax, and grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

Government-wide Statements

In the government-wide financial statements, fixed assets are accounted for as capital assets. All fixed assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated fixed assets which are recorded at their estimated fair value at the date of donation. Estimated historical cost was used to value the majority of the assets for which cost was not available.

Prior to July 1, 2001, governmental funds' infrastructure assets were not capitalized. These assets (back to July 1, 1968) have been valued at estimated historical cost.

Depreciation of all exhaustible fixed assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation.

The range of estimated useful lives by type of asset is as follows:

<u>Type</u>	<u>Useful Life (years)</u>
Land, easements, and right of way	N/A
Land improvements	20
Building and improvements	50
Infrastructure	15 – 65
Equipment and furniture	3 – 15

Fund Financial Statements

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Fixed assets used in proprietary fund (business-type) operations are accounted for the same as in the government-wide statements.

Restricted assets

Restricted assets include cash and investments of the debt service fund that are legally restricted as to their use, which is for the payment of long-term debt obligations. In addition, certain redevelopment assets are restricted for low/moderate income housing expenditures (see Note 3.H.). Certain capital project funds and special revenue funds are restricted by the sources for specific purposes such as gas tax, measure C (streets) and maintenance assessment districts.

Long-term debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in the government-wide statements. The long-term debt consists primarily of bonds payable.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principle and interest reported as expenditures. The accounting for a proprietary fund is the same in the fund statements as it is in the government-wide statements.

Compensated absences

The City's policies regarding vacation time permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is recorded as non-current debt in the government-wide statements.

Equity classifications

Government-wide Statements

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt—Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets—Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets—All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further classified as reserved and unreserved, with unreserved further split between designated and undesignated. Proprietary fund equity is classified the same as in the government-wide statements. See Note 3.G. for additional disclosures.

1. E. Revenues, Expenditures, and Expenses

Property tax and assessments

State of California ("State") Constitution Article XIII provides for a maximum general property tax rate statewide of \$1.00 per \$100 of assessed value. Assessed value is calculated at 100% of market value as defined by Article XIII. The State Legislature has determined the method of distribution of receipts from the \$1.00 levy among the counties, cities, school districts and other districts. Counties, cities and school districts may levy such additional tax rate as is necessary to provide for voter approved debt service.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

However, because Lafayette was incorporated in 1968 as a no-property tax city, through fiscal year June 30, 1988, Lafayette received property tax distributions only for those geographical areas incorporated into the city limits after 1978, when Proposition XIII became law with its restrictions on funding. Thus, though Lafayette's property owners paid property taxes at the same rate as property owners in other cities, the City of Lafayette received a disproportionately smaller share of the distribution of receipts.

Pursuant to the 1988 Trial Court Funding Bill and subsequent reallocations, the City is receiving a measure of relief from this funding deficiency. Beginning in 1989, Lafayette began receiving funds in lieu of property taxes and/or additional property tax allocations. The receipt of these funds has been phased in gradually, and by 1997/1998 the City of Lafayette received the equivalent of approximately 7% of the total property taxes that its property owners pay. This can be compared to the average 14% allocation received by cities in Contra Costa County. The amount received is further reduced by a partial shift to fund schools.

The county uses the following calendar to assess properties, bill for, collect, and distribute property taxes.

	<u>Secured</u>	<u>Unsecured</u>
Valuation dates	March 1	March 1
Lien/levy dates	March 1	March 1
Due dates	50% on November 1 50% on February 1	July 1
Delinquent as of	December 10 April 10	August 31

The term "unsecured" refers to taxes on personal property other than real estate, land and buildings. These taxes are secured by liens on the property being taxed.

Sales tax

The State presently levies an 8.25% sales tax on taxable sales within the City of which 1% is allocated to the City. The sales tax is collected by the State and remitted to the City in the month following receipt. The State receives the sales tax approximately one to three months after collection by vendors. Sales taxes collected by the State in June and July (which represent sales for May and June) and received by the City in July and August have been accrued and are included under the caption "Accounts Receivable". The 8.25% sales tax also includes some "Measure C" funds which are allocated to the City pursuant to street/pavement needs as approved by the Contra Costa Transportation Authority (CCTA).

Other taxes

Other taxes as realized by the City include franchise taxes, transient occupancy taxes, motor vehicle in lieu tax and other fines and fees.

Operating revenues and expenses

Operating revenues and expenses for proprietary funds are those that result from providing services (recreation classes).

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

Expenditures / expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

Governmental Funds—By Character:	Current (further classified by function)
	Debt Service
	Capital Outlay

Proprietary Fund—By Operating and Non-operating (if applicable)

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources.

Interfund transfers

Permanent reallocation of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

2. A. Fund Accounting Requirements

The City complies with all state and local laws and regulations requiring the use of separate funds. The legally required funds used by the City include the following:

<u>Fund</u>	<u>Required By</u>
Gas Tax Fund	State Law - included in "Other Governmental"
Parking Programs	Local Ordinance
Code Enforcement	Local Ordinance
Measure C	County Measure
Assessment Districts:	
Street Lighting	Local Ordinance
Core Area Maintenance	Local Ordinance
Storm Water Pollution	Local Ordinance

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

2. B. Deposits and Investments Laws and Regulations

The California Government Code requires California banks and savings and loan associations to secure a City's deposits by pledging government securities as collateral. The market value of pledged securities must equal at least 110% of a City's deposits. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the City's total deposits. The first \$100,000 of each institution's deposits are covered by FDIC insurance.

The City may waive collateral requirements for deposits, which are insured by federal depository insurance. The City had not waived such requirements as of June 30, 2008.

2. C. Revenue Restrictions

The City has various restrictions placed over certain revenue sources from state or local requirements. The primary restricted revenue sources include:

<u>Revenue Source</u>	<u>Legal Restrictions of Use</u>
Gasoline Tax	Street Purposes
Measure C Tax (part of sales tax)	Street and Alley Purposes
Assessment Districts	Lighting, Core Area Maintenance, and Storm Water
Ad Valorem Tax Assessments	Debt Service
Supplemental Law Enforcement	Police

For the year ended June 30, 2008, the City complied, in all material respects, with these revenue restrictions.

2. D. Debt Restrictions and Covenants

General obligation debt

- Authority of Issuance

The General Obligation Bonds (G.O. Bonds) were issued to finance the repair and reconstruction of the City's roads and drains. The Bonds constitute a portion of the total authorized amount of \$13,000,000 of general obligation bonds of the City duly authorized by at least two-thirds of the qualified voters of the City voting at an election on March 7, 1995. The City had previously issued \$10,320,000 of bonds under this authorization. In the fiscal year ended June 30, 2004, the City issued an additional \$6,035,000 of General Obligation Bonds of which \$4,791,110 were placed in trust for the retirement of previously issued G.O. Bonds. The Bonds are issued pursuant to the provisions of Article 1 of Chapter 4 (commencing with Section 43600) of Division 4 of Title 4 of the Government Code of the State of California and other applicable laws, and pursuant to the Paying Agent Agreement dated as of February 1, 2002, by and between the City and Wells Fargo Bank, acting as paying agent, as authorized by the City Council by a resolution adopted on January 28, 2002. On July 15, 2005, \$5,170,000, the remaining balance of the 1995 G.O. Bond issue was retired in full with interest due thereon of \$152,293 and a call premium of \$100,800.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

The liability for the two issues of general obligation bonds was as follows at June 30, 2008:

	<u>Original Issue</u>	<u>Total Outstanding</u>	<u>Due in Fiscal year June 30, 2008</u>
2002 Issue	\$ 4,320,000	\$ 3,860,000	\$ 110,000
2004 Issue	6,035,000	5,365,000	230,000
	<u>\$ 10,355,000</u>	<u>\$ 9,255,000</u>	<u>\$ 340,000</u>

In order to provide sufficient funds for repayment of principal and interest when due on the General Obligation Bonds, the City is empowered and is obligated to annually levy *ad valorem* taxes upon all property subject to taxation by the City, without limitation as to rate or amount (except as to certain personal property which is taxable at limited rates). Such taxes are in addition to all other taxes levied upon property within the City. Such taxes, when collected will be placed in the Interest and Sinking Fund for the bonds authorized in the March 1995 election. Refer to note 3.F. for details on long-term debt.

- Assessed Valuation of Property Within the City

As required by State law, the City utilizes the services of the County for the assessment and collection of taxes for City purposes. City taxes are collected at the same time and on the same tax rolls as are County, school district, and other special district taxes. The County has adopted the Alternative Method of Distribution of Tax Levies and Collections and of Tax Sale Proceeds (the "Teeter Plan"), as provided for in Section 4701 et seq. of the California Revenue and Taxation Code.

For Fiscal Year 2007-08, the City's total secured and unsecured assessed valuation is \$5,374,447,394.

Other long-term debt- Redevelopment Fund debt

To help finance Redevelopment projects, on August 6, 2002 and on November 9, 2005, the Redevelopment Agency issued bonded indebtedness, which will be repaid using redevelopment tax increment. A principal payment of \$100,000 was scheduled and made on August 1, 2007. A principal payment of \$110,000 was made on August 1, 2008.

2. E. Fund Equity

Redevelopment Agency - Fund Equity

As noted in note 1.A., the Redevelopment Agency has funded much of its operations with loans from the General Fund. It has a net asset balance of \$8,261,134. The Fund equity is calculated as follows:

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

Total Fund Balance (deficit) on a "Governmental Fund" basis	\$ 6,651,162
Add fixed assets capitalized	18,532,232
Deduct accrued interest on debt payable	(345,820)
Record prepaid debt issuance costs, net of amortization	358,560
Debt Payable – long and short term	<u>(16,935,000)</u>
Net Assets - Redevelopment Fund	<u>\$ 8,261,134</u>

NOTE 3. DETAIL NOTES ON TRANSACTION CLASSES / ACCOUNTS

The following notes present detail information to support the amounts reported in the basic financial statements for its various assets, liabilities, equity, revenues, and expenditures/expenses.

3. A. Cash and Investments

The City had the following cash and investments at June 30, 2008:

<u>Cash and Cash Equivalents:</u>		Moody Rating
Deposits in Banks	\$ 1,102,083	N/A
Petty Cash	892	N/A
Local Agency Investment Fund - State of California	<u>27,213,387</u>	N/A
Total Cash and Cash Equivalents	<u>28,316,362</u>	
Investment in mutual funds	4,439,346	AAA
Investment in U.S. Treasury and Federal Agency obligations, at market value, Maturing August 2008 to March 2009, Par \$ 5,812,000 (see listing which follows)	<u>5,546,508</u>	AAA
	<u>9,985,854</u>	
Total Cash and Investments	<u>\$ 38,302,216</u>	

Reconciliation to financial statements:

Unrestricted:

Cash and cash equivalents	\$ 24,370,931
Investments in bonds and mutual funds	<u>8,740,758</u>
Unrestricted cash and investments	33,111,689

Restricted for debt service and low and moderate housing:

Cash and investments	<u>5,190,527</u>
Total	<u>\$38,302,216</u>

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

The City's investments with LAIF at June 30, 2008 include a portion of the pool funds invested in Structured Notes and Asset-Backed Securities. These investments may include the following:

Structured Notes are debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend on one or more indices and/or that have embedded forwards or options.

Asset-backed Securities, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as CMO's) or credit card receivables.

As of June 30, 2008, the City had \$27,398,176 invested in LAIF, which had invested 11.12% of the pool investment fund in structured notes and asset-backed securities.

Investment in U.S. Treasury and Federal Agency Bonds and Obligations

Federal Agency	PAR	Coupon Percentage	Maturity Dates	June 30, 2008 Market Value	Moody's Rating
Fed Home Loan Bank	\$ 2,000,000	5.125 - 5.250	8/8/2008 - 3/13/09	\$ 2,019,060	AAA
FHLMCMTN	1,000,000	4.625	12/19/2008	1,009,060	AAA
FNMA Discount Note	2,512,000	discount	10/15/2008	2,494,165	AAA
Fund First Amer. Gov't	24,233		N/A	24,223	N/A
Total PFM Asset Management	<u>\$ 5,536,233</u>			<u>\$ 5,546,508</u>	

At June 30, 2008, the carrying amount of the City's deposits was \$1,173,537. Bank balances before reconciling items were \$1,619,740 (before deducting outstanding checks) at that date, the total amount of which was collateralized or insured with securities held by the pledging financial institutions in the City's name as discussed in the following.

The California Government Code requires California banks and savings and loan associations to secure the City's cash deposits by pledging securities as collateral. This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the City's name.

According to California law, the market value of pledged securities with banking institutions must equal at least 110% of the City's cash deposits. California law also allows institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the City's total cash deposits. The City may waive collateral requirements for cash deposits, which are fully insured up to \$100,000 by the Federal Deposit Insurance Corporation. The City, however, has not waived the collateralization requirements.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

The City follows the practice of pooling cash and investments of all funds, except for funds required to be held by fiscal agents under the provisions of bond indentures. Interest income earned on pooled cash and investments is allocated on a quarterly basis to the various funds based on average daily cash and investment balances. Interest income from cash and investments with fiscal agents is credited directly to the related fund.

The City maintains a cash deposit and investment pool that is available for use by all funds. It is not used for the retirement plan and the deferred compensation plan.

The City is authorized to invest in obligations of the U.S. Treasury, agencies, and instrumentalities, commercial paper with certain minimum ratings, certificates of deposit, bankers' acceptances, repurchase agreements, and the State Treasurer's investment pool (Local Agency Investment Fund).

The City is authorized by State statutes and in accordance with the City's Investment Policy (Policy) to invest in the following:

- ❖ Securities issued or guaranteed by the Federal Government or its agencies
- ❖ State Local Agency Investment Fund (LAIF)
- ❖ Insured and /or collateralized certificates of deposit

The Policy, in addition to State statutes, establishes that funds on deposit in banks must be federally insured or collateralized and investments shall (1) have maximum maturity not to exceed five years, (2) be laddered and based on cash flow forecasts; and (3) be subject to limitations to a certain percent of the portfolio for each of the authorized investments. The City's investments comply with the established policy.

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Investments*, investments were stated at fair value using the aggregate method in all funds and component units, resulting in the following investment income:

Unrealized gain/(loss) in changes in fair value of investments	\$ 37,800
Interest income (all investments)	<u>1,850,559</u>
Total investment income	<u>\$ 1,888,359</u>

The City portfolio value fluctuates in an inverse relationship to any change in interest rate. Accordingly, if interest rates have risen, the portfolio value will have declined. If interest rates have fallen, the portfolio value will rise.

In accordance with GASB Statement No. 31, the portfolio for year-end reporting purposes is treated as if it were all sold. Therefore, fund balance must reflect the portfolio's change in value. These portfolio value changes are unrealized unless sold. The City's policy is to buy and hold investments until their maturity dates.

CITY OF LAFAYETTE
Notes to Financial Statements

3. B. Restricted Assets

The amounts reported as restricted assets are held for debt service payments and low/moderate housing (the Redevelopment Agency). The restricted assets are as follows (see note 3.H.):

	<u>Debt Service</u>	<u>Low/moderate Housing Income</u>	<u>Total</u>
Cash and equivalents	\$ 1,273,744	\$ 2,758,745	\$ 4,032,489
Accrued interest	-	15,023	15,023
Eden loan receivable	-	202,405	202,405
Total restricted assets	<u>\$ 1,273,744</u>	<u>\$ 2,976,173</u>	<u>\$ 4,249,917</u>

3. C. Accounts Receivable

The amount of accounts receivable for the business-type activities was \$1,443 at June 30, 2008. Accounts receivable for the governmental activities consist of various taxes and fees dated June 30 and prior received subsequent to June 30, 2008. They include:

California State library grant (RDA)	\$ 5,921,641
Department of Transportation (Federal/State)	691,794
Measure C	383,811
Sales tax	319,200
Transient occupancy tax	144,933
Gas tax	106,548
Franchise taxes	101,369
Property tax	60,223
Transfer tax	55,198
Vehicle code fines	43,228
Other	69,944
	<u>\$ 7,897,889</u>

3. E. Library Loan Agreement

In May of 2008, the Lafayette Redevelopment Agency (the Agency) and the Lafayette Library and Learning Center Foundation (the Foundation) entered into an agreement whereby the Foundation agreed to loan the Agency \$9,000,000 with interest to be paid at the rate of 6.25% per annum. Per the agreement, funds are to be used by the Agency to pay for the construction costs of the library project. The loan and accrued interest is to be paid in full by December 31, 2039 unless an alternative agreement is reached with the Foundation.

3. F. Long-Term Debt

The reporting entity's long-term debt is general obligation bond amounts totaling \$9,225,000 and Redevelopment tax allocation bonds of \$16,935,000 to be repaid from governmental activities (see note 2.D.).

A summary of fiscal year ended June 30, 2008 general long-term debt transactions as follows:

	<u>Interest Rates</u>	<u>Balance June 30, 2007</u>	<u>Principal Retirement</u>	<u>Balance June 30, 2008</u>
<i>Redevelopment:</i>

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

3. G. Interfund Transactions and Balances

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The following transfers were made during the year:

Fund	Transfers In	Transfers Out
General Fund	\$ 220,000	2,049,113
Capital project funds	3,299,653	1,531,161
Redevelopment agency	594,158	594,158
Other governmental funds	614,318	533,697
Subtotal	4,728,129	4,708,129
Proprietary fund	-	20,000
	\$ 4,728,129	4,728,129

The Redevelopment Agency has borrowed \$4,679,171 (at 8% per annum) from the General Fund, which is to be repaid out of future ad valorem revenues. In addition, the Redevelopment Fund has borrowed \$585,341 from another City fund to be repaid over a 20 year period at 8% (15 years remaining), also to be paid out of future ad valorem revenues.

NOTE 4. OTHER NOTES

4. A. Employee Benefit Plans

Employee Retirement Contribution

Employees of the City as of July 1, 2004 shall be allowed to choose between two retirement plans as follows:

Tenure-Based Contribution System

The City shall make a contribution toward a retirement fund for each regular full-time employee. The contributions will be made based on the number of months of service from the date of regular employment between \$215 and \$515 per month. Contributions for part-time employees are based on a prorate share of the full-time contributions based on hours worked. This option is only available to employees hired before July 1, 2004.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

Salary -Based Contribution System

The City shall make monthly contributions toward a retirement (401A) plan for each regular employee and part time regular employees working a minimum of 20 hours per week. The contribution on behalf of each participant should equal 10% of based earnings up to the maximum allowable by law. In addition, each participant is required to contribute 5% of earnings to the plan and the City has elected to match such contribution by the same percentage. Employees currently in the tenure based contribution system may choose to be placed on the Salary-Based at any time, however, once this option has been exercised, the employee may not revert back to the tenure based contribution system.

Employees are fully vested in the City's contributions (and interest allocated to the employee's account) after five years of continuous service by the employee, with the exception of those employees over 50 years old who are fully vested from the first month of employment.

The City purchases its insurance through the Municipal Pooling Authority of Northern California (MPA).

The City's total payroll in fiscal year 2008 was approximately \$3,827,081. Contributions to the plans totaled \$444,370 by the City and \$141,889 by individuals during the year.

The following summarizes transactions in the Plan for the year ended June 30, 2008:

Defined contribution retirement plan:	
Balance June 30, 2007	\$ 3,418,542
Contributions : Employer	444,370
Employee	141,889
Other	(4,671)
Disbursements, net	(123,254)
Earnings	(300,476)
Balance June 30, 2008	\$ <u>3,576,400</u>

Deferred compensation plan

All employees of the City are eligible to participate in a City sponsored deferred compensation plan (the "Plan"). The Plan provides for the deferral of a portion of the employees' compensation until retirement, termination, or certain other covered events. The funds are invested by the City on behalf of the employees through an administrator in various instruments including money market funds, bonds and others. The assets of the Plan, under Internal Revenue Code section 457, formerly were the property of the City until paid or made available to participants, subject only to the claims of the City's general creditors. However, based on a change in the income tax code dated August 1996, the assets are no longer those of the city but are in trust for the exclusive benefit of plan participants.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

The following summarizes transactions in the Plan for the year ended June 30, 2008:

Deferred compensation plan:		
Balance June 30, 2007	\$	4,499,057
Contributions		331,018
Disbursements		(46,713)
Earnings		(395,634)
Balance June 30, 2008	\$	<u>4,387,728</u>

4. B. Risk Management

Insurance coverage

The City purchases its insurance through the Municipal Pooling Authority of Northern California (MPA). The following is a summary of coverage as of June 30, 2008:

	Participating Cities' Total Coverage	Deductible (City Portion)
All risk fire and property	\$ 1,000,000,000	\$ 5,000
Boiler and machinery	\$ 25,000,000	\$ 5,000
Liability	\$ 24,000,000	\$ 5,000
Auto-physical damage	\$ 250,000	\$ 2,000
Workers' compensation	\$ 250,000,000	\$ 0

The total coverage includes the City's deductible, the portion underwritten by MPA and the portion underwritten by other insurance companies.

Management believes such coverage is sufficient to preclude any significant uninsured losses to the City. Settled claims have not exceeded this insurance coverage in any of the past three fiscal years.

4. C. Commitments and Contingencies

Claims involving the City of Lafayette

The City is defendant in lawsuits arising in the normal course of business. City management is of the opinion that the potential claims against the City not covered by insurance resulting from litigation are adequately provided for in the General Fund of the City.

Grant programs

The City participates in several federal and state grant programs. These programs have been audited when required by the City's independent accountants in accordance with the provisions of the federal Single Audit Act of 1984 as amended and applicable State requirements. No cost disallowances were proposed as a result of these audits. However, these programs are still subject to further examination by the grantors and the amount, if any, of expenditures that may be disallowed by the granting agencies cannot be determined at this time. The City expects such amounts, if any, to be immaterial.

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

4. D. Subsequent Events – Redevelopment Agency of the City of Lafayette

Lafayette City Library

The Redevelopment Agency (the Agency) is in the process of constructing the Lafayette Library. In October 2008, the Agency issued \$9.6 million dollars of tax allocation bonds in conjunction with funding this project.

4. E. New Accounting Pronouncements

In April 2004, GASB issued GASB No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. This Statement provides guidance on how to report OPEB plans that qualify as a trust or agency funds or as fiduciary component units of either a participating employer, a plan sponsor, a public employee retirement system (CalPERS, or other administering entity). The requirements for this statement are effective for fiscal periods beginning after December 15, 2006 provided GASB 45 is also implemented. The City will implement this standard in conjunction with GASB 45.

In July 2004, GASB issued GASBS No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. This Statement requires local governmental employers who provide other postemployment benefits (OPEB) as part of the total compensation offered to employees to recognize the expense and related liabilities (assets) in the government-wide financial statements of net assets and activities. This Statement establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities (assets), note disclosures, and, if applicable, required supplementary information (RSI) in the financial reports of State and local governmental employers.

Current financial reporting practices for OPEB are generally based on pay-as-you-go financing approaches. Current financial reporting practices fail to measure or recognize the cost of OPEB during the periods when employees render the services, or to provide relevant information about OPEB obligations and the extent to which progress is being made in funding those obligations.

This Statement generally provides for prospective implementation - that is, that employers set the beginning net OPEB obligation at zero as of the beginning of the initial year. The City will be required to implement the provisions of this Statement for the fiscal year ended June 30, 2009 (effective for “fiscal years beginning after December 31, 2007”). The City is in the process of determining the impact the implementation of the Statement will have on the government-wide statement of net assets and activities.

In November of 2006, GASB issued GASBS No. 49, *Accounting and Financial Reporting Pollution Remediation Obligations*. The City is required to implement the provisions of this Statement for the fiscal year ending June 30, 2009 (effective for “periods beginning after December 15, 2007”). This standard addresses current or potential detrimental effects of *existing* pollution by participating in pollution remediation activities such as site assessments and cleanups. The scope of the document excludes pollution *prevention* or *control* obligations with respect to current operations, and future pollution remediation activities that are required upon retirement of an asset, such as a landfill closure. This statement may have a material effect on the financial statements of the City

CITY OF LAFAYETTE
Notes to Financial Statements
June 30, 2008

In May of 2007, GASB issued GASBS No. 50, *Pension Disclosures – an amendment of GASB Statements No. 25 and No. 27.* The City is required to implement the provisions of this Statement for the fiscal year ending June 30, 2008 (effective for periods beginning after June 15, 2007). This Statement aligns more closely the financial reporting requirements for pensions with those for other postemployment benefits (OPEB) and, in doing so, enhances information disclosed in notes to financial statements or presented as required supplementary information (RSI) be pension plans and by employers that provide pension benefits.

In June of 2007, GASB issued GASBS No. 51, *Accounting and Financial Reporting for Intangible Assets.* The City is required to implement the provisions of this Statement for the fiscal year ended June 30, 2010 (effective for periods beginning after June 15, 2009; for governments classified as phase 2 under GASBS No. 34, retroactive reporting is required for intangible assets acquired in fiscal years ended after June 30, 1980). This Statement requires that all intangible assets not specifically excluded by its scope provisions be classified as capital assets. Governments possess many different types of assets that may be considered intangible assets, including easements, water rights, patents, trademarks, and computer software. Intangible assets, and more specifically easements, are referred to in the description of capital assets in Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments.* This reference has created questions as to whether and when intangible assets should be considered capital assets for financial reporting purposes. The implementation of the provisions of this standard may have a material effect on the financial statements of the City.

In November of 2007, GASB issued GASBS No. 52, *Land and Other Real Estate Held as Investments by Endowments.* The City is required to implement the provisions of this Statement for the fiscal year ending June 30, 2009 (effective for periods beginning after June 15, 2008). This Statement requires endowments to report their land and other real estate investments at fair value and governments to report the changes in fair value as investment income and to disclose the methods and significant assumptions employed to determine fair value, and other information that they currently present for other investments reported at fair value. Endowments exist to invest resources for the purpose of generating income. Other entities that exist for similar purposes—pension and other postemployment benefit plans, external investment pools, and Internal Revenue Code Section 457 deferred compensation plans—however, report land and other real estate held as investments at their fair value. We do not expect this statement to have a material effect on the financial statements of the City.

In June of 2008, GASB issued GASBS No. 53, *Accounting and Financial Reporting for Derivative Instruments.* This Statement requires governments to measure derivative instruments at fair value in their economic resources measurement focus financial statements. Derivative instruments are often complex financial arrangements used by governments to manage specific risks or to make investments. By entering into these arrangements, governments receive and make payments based on market prices without actually entering into the related financial or commodity transactions. Derivative instruments associated with changing financial and commodity prices result in changing cash flows and fair values that can be used as effective risk management or investment tools. Derivative instruments, however, can also expose governments to significant risks and liabilities. Common types of derivative instruments used by governments include interest rate and commodity swaps, interest rate locks, options (caps, floors, and collars), forward contracts, and future contracts. The City is required to implement the provisions of the Statement for the fiscal year ending June 30, 2010 (effective for periods beginning after June 15, 2009), which should allow users of the financial statements to more fully understand the City’s resources available to provide services. The City does not currently hold such instruments which would be classified as derivatives other than a small amount held through the State Investment Pool.
