Zone 3	2nd Wednesday of month
Zone 4	3rd Friday of month
Zone 5 North	4th Tuesday of month
South	3rd Friday of month

The City of Lafayette's street sweeping program is funded by your local Stormwater Pollution Control Program to comply with the Federal Clean Water Act. Street sweeping removes pollutants before they drain into storm drains, ditches and creeks that eventually flow into San Francisco Bay untreated. Please use these guidelines to help us keep your streets clean:

- Park your cars off the street on scheduled sweeping day. Sweeping around parked cars requires more time, is less effective and is a dangerous maneuver.
- Keep landscape plants pruned back far enough to allow sweepers to sweep against curb.
- Keep tree branches pruned to a height of 14' above street to allow passage of sweeper.
- Do not blow or sweep leaves from yards into the street. Sweepers are not equipped to pick up large piles of leaves left in the street.
- Only publicly maintained streets with curb or asphalt berm are swept.

If you see someone dumping into a storm drain, call **1-800-NO DUMPING** or City offices. Record as much information about the incident and parties involved as possible (take photos). If you have household hazardous wastes to dispose of, please call **1-800-646-1431**.

If you believe your street should be swept and it isn't shown on this map, please call Public Works at 925-934-3908.
