

Stormwater Workshop - “Integrating Reasonable Assurance Analysis and Stormwater/Green Infrastructure Plans”

Sponsored by SF Bay Regional Water Quality Control Board and EPA Region 9 Water Division

Wednesday Sept. 23, 2015

9am – 4pm

SF Bay Regional Water Quality Control Board
Elihu Harris State Office Building
1515 Clay Street, Oakland, CA
Room 1 (2nd Floor)

(Please allow 5 minutes to pass through building security w/ metal detector)

Workshop Approach: Through case study presentations by city, county, and state program managers and modelling consultants, we will explain how reasonable assurance modeling, BMP siting, and tracking tools have been developed and used to support development of stormwater control and green infrastructure plans needed to meet MS4 permit requirements and other watershed planning objectives. Please RSVP to Peter Kozelka at kozelka.peter@epa.gov
