

Project Update

2017 Road Rehabilitation Project

Date: 06/02/17

Bay Cities has completed the street paving work. In the upcoming weeks they will be working on cleaning up construction debris and trash from the various streets as well as adjusting manhole and water valve covers to grade. The traffic striping crew will be on site to layout and install traffic markings and striping.

This will be the last Friday update. If you have any questions or concerns about the remaining work please contact me at (925) 299-3247. Your patience throughout this project has been greatly appreciated.

Matt Luttropp
Senior Engineer
