

Project Update

2017 St. Mary's Road Stabilization

Date: 09/29/2017

Valentine Corp. has started construction this week including prepping the work site, installing temporary environmental fencing, and installing a creek diversion. Next week, the earthwork will begin. Please be aware that there may be traffic delays on St. Mary's Road from Rohrer Drive to the Town of Moraga border during this time. Your patience throughout this project will be greatly appreciated.
