Kids' Carpentry

Michael and Jeab are back from Thailand and will be teaching together this summer! Since 1982 Michael Glass, the director of Kids' Carpentry, has taught thousands of children the safe use of hand tools. Children may choose from a wide variety of projects after first completing their sanding block and supertop. While building their projects from scratch children are introduced to concepts like applied math, problem solving, fine motor skills and empowered with the opportunity to use a large variety of woodworking tools. Our motto: Building confidence and teaching with respect and humor in a safe and happy environment. **\$35 materials fee paid to instructor at first class.**

Transatlantic Soccer Skills Camp

At Transatlantic Soccer, our top experienced coaches from Europe come to America with the aim to develop the soccer skills of the players we work with through fun games, drills and game related practices. Our coaches go through an intensive practical and formal interview process to ensure that they are experienced and have a genuine love of working with the game and working with children. We believe that by creating a fun learning environment, the children at our camps will learn faster and take our coaching points on board. Although during our beginner and intermediate camp we will teach through fun games its important that each fun game that we play has a purpose and will always refer to the coaching points that are being taught that day. Our camps are all about learning and developing as a player both technically, tactically and inter-personally. We offer summer camps for beginners, intermediate players and advanced players and at each camp players are split into a group based on age, ability and start practicing right away.
