

Project Update

2018 Storm Drain Rehabilitation Project

Date: 10/19/18

This week, the Contractor accomplished the following improvements:

- Installed the storm drain pipe liner on Village Center;
- Installed the storm drain pipe liner on St. Mary's Rd.;
- Completed the pavement restoration on Mt. Diablo Blvd., Village Center, School Street, Old Tunnel Rd., and Quandt Rd.;
- Completed the restoration work at 3784 Mosswood Dr.

Next week, the Contractor anticipates to performing the following work:

- Complete the pavement restoration on remaining unfinished street(s);
- Complete the striping and pavement legends and markings on Mt. Diablo Blvd., Village Center, School Street, Old Tunnel Rd., and Quandt Rd.
- Complete the remaining unfinished miscellaneous items and punch list.

While the work is in progress, please lend us your cooperation and extra patience and be alert to equipment, flagger, workers, and traffic.

This will be the last Project Update posted for this project and I would like to take this opportunity to thank you for all your cooperation and patience during the construction.

If you have any questions or concerns, I may be reached at (925) 284-1951. Again, your patience and cooperation are very much appreciated.
