

# Project Update

## 2020 Road Resurfacing Project

---

Date: 11/13/20

*This week, the Contractor completed replacing damaged guardrails on Acalanes Road; repairing damaged asphalt berms on Reliez Valley Road and St. Mary's Road; placing shoulder backing and striping on all streets within project limits; and continued to work on the punch list items on all streets within the project limits.*

Next week, **weather permitting**, the Contractor anticipates performing the following work:

1. Continue placing striping on St. Mary's Road;
2. Continue to work on the remaining punch list items on all streets within project limits;
3. Start placing sand seal at some of the asphalt edges and driveways on Beechwood Drive.

While the work is in progress, please lend us your cooperation and extra patience and be alert to equipment, workers, and traffic.

This will be the last Project Update posted for this project and I would like to take this opportunity to thank you for all your cooperation and patience during the construction.

If you have any questions or concerns, I may be reached at (925) 284-1951 or contact the Contractor's Project Manager, Troy Miles at (707) 391-5082. Again, your patience and cooperation are very much appreciated.
