

Project Update

2022 Surface Seal Project

Date: September 2, 2022

This week the contractor completed striping work in the City, save for Middle Road and Moraga Road.

Next week, the contractor plans on finishing the project and completing the finalized punchlist.

No lane closures or road closures are to be expected. On Moraga Road, expect some delay as the striping cart and crew place reflectors on the road. Follow the crash car and do not attempt to pass the striping vehicles.

While the work is in progress, please lend us your cooperation and extra patience and be alert to equipment, workers, and traffic.

If you have any questions or concerns, I may be reached at (925) 299-3245. Again, your patience and cooperation are very much appreciated.

Tim Clark
Assistant Engineer
City of Lafayette
