

LAFAYETTE VISION ZERO

Share Your Ideas on Safer Streets With Us!

Use the map activity at bit.ly/LRSPmap to share:

- Ideas for safer streets for everyone
- Places where you have felt safe or unsafe on Lafayette streets
- Your stories about getting around town
(experiences about all modes of travel welcome)

Map activity closes November 20

The Lafayette City Council has adopted Vision Zero, a global initiative to eliminate traffic fatalities and severe injuries, while increasing safe, healthy, and equitable mobility for all.

In support of Vision Zero, the City is developing a Local Roadway Safety Plan (LRSP), a data-driven approach that will result in a better understanding of our city's crash patterns and a multi-disciplinary strategy to address these safety challenges.

Join us in creating a Lafayette-specific safety plan. Share your ideas and concerns with the Local Roadway Safety Plan Task Force through the mapping activity or at an upcoming meeting.
