**Subject: Road Closure during Tree Removal/Trimming Work, August 3, 4, and 7**

Dear Resident:

As part of the City's 2023 Paving Project, JV Lucas Paving will be removing a large tree that spans Glenside Drive on Thursday, August 3 and Friday, August 4, and they will also trim the canopy vegetation on Monday August 7. During this work, Glenside Drive will be closed to through traffic between Los Palos Drive and Michael Lane between the hours of 9:00 am to 4:30 pm.

A detour will be in place at the intersection of Michael Lane and Glenside Drive routing through traffic around the construction site. If you wish to leave Augustine Lane, you will be directed to exit to the right, as Glenside Drive to the left will be closed. On your return, please inform the flagger stationed at the Michael Lane intersection that you wish to proceed through to Augustine Lane, and you will be permitted access. Please note that access to Augustine Lane will only be possible from the north (Michael Lane intersection). All emergency vehicles and trash/recycling collection will have full access to any part of Glenside Drive and Augustine Lane during this work.

For your safety and the safety of others please follow the directions given by traffic control personnel and temporary traffic signage.

During construction, questions regarding the work may be directed to Antony Perez, JV Lucas Paving's Project Manager, at 925-348-6648, or I may be reached at 925-299-3209. Again, your patience and cooperation are very much appreciated.

Sincerely,

*Ana Bernardes*
