

Slow Down Lafayette Crosswalk Safety Tips

Dear Parents, family, and friends of Lafayette students,

You can play a key role in the safety of students every day! As part of our Slow Down Lafayette effort to make our streets safer for everyone, we need your help. Here are a few reminders about school crosswalks:

- **Follow crossing guard directions** for the safety of our students
- **Slow down and be prepared to stop** when turning or otherwise entering a crosswalk
- **Stop well back from the crosswalk** and do not block an intersection; Give other vehicles an opportunity to see the people in the crosswalk
- **Give students extra space**, they may be more focused on their friends and not on cars
