GROUND STAKING & STORY POLES

For pending Design Review and Hillside Development Permit applications, as well as for most subdivisions, some form of building site staking will be required. Planning Services Division staff will determine whether ground staking or story poles will be required depending on the visual sensitivity of the site.

GROUND STAKING

STORY POLES

Construction fence at least 2 (two) feet wide (in “international orange” or other contrasting color) shall be assembled to represent the height, bulk and mass of proposed structures. Netting must be supported by stakes or wires strong enough to accurately outline the entire building perimeter and height. A site plan showing the location of story poles shall be submitted to planning staff
