

Slow Down Lafayette: New Lower Speed Limits around Schools

Dear Parents, family, and friends of Lafayette students,

Over the summer, the City of Lafayette installed new speed limit signs reflecting the new speed limits in school zones around all five LafSD campuses:

- Burton Valley
- Happy Valley
- Lafayette Elementary
- Springhill
- Stanley

Per State Law, school zone speed limits are in effect within 500' of an entry to a school whenever children are present, i.e. pick-up/drop-off times, lunchtime, etc.

The City has also reduced the speed limit near Acalanes High School, private schools and eight other roadway segments in town - please visit the city's website at www.lovelafayette.org/slowdown for more details including a map.

Drivers should be aware of the new speed limits in school zones and mindful of how fast they are travelling.

Remember: Driving at a safe speed lowers the likelihood of a crash by allowing more response time and better visibility.
